**"The most informed about the background book of the last decade" has been transformed into the guidebook for the future.**

*\*Hugh Downs*

In this thoroughly researched, scrupulously annotated, shockingly provocative book you'll learn:  
• How and why Cannabis prohibition began and what that has meant to America. • All the uses of hemp as medicine, food, fuel, fiber, paper, and as a plastic replacement. • The straight dope on marijuana smoking and its effect on the human body. • Who profits from the prohibition and who's alive in the Cannabis. • What you can do to speed up legalization and profit from the coming changes.

## A \$100,000\* CHALLENGE TO THE WORLD TO PROVE US WRONG:

**If all fossil fuels and their derivatives, as well as trees for paper and construction were banned in order to save the planet, reverse the Greenhouse Effect and stop deforestation; Then there is only one known annually renewable natural resource that is capable of providing the overall majority of the world's paper and textiles; meet all of the world's transportation, industrial and home energy needs, while simultaneously reducing pollution, rebuilding the soil, and cleaning the atmosphere all at the same time...**

**And that substance is—the same one that did it all before—**

**Cannabis Hemp... Marijuana!**

SUPERVISION  
PROGRAM

Dear Chairman Murphy and members of the Senate Judiciary Committee,

I am the Executive Director of Missoula Correctional Services, Inc. (MCS) a non-profit corporation that provides a number of community corrections programs for the State of Montana, Missoula County, and the City of Missoula. MCS supervises offenders convicted of felony and misdemeanor offenses. Additionally, MCS operates one program that oversees youth referred by Youth Court for the performance of their community service hours.

I am writing you today as an informational witness. I would venture to say that at least 90% of the adult offenders we supervise have chemical dependency problems. MCS has witnessed a number of addicted offenders obtain their medical marijuana card through the existing medical marijuana law as a means to support their addiction. As such, it becomes a public safety issue and an impediment to the rehabilitation of these offenders.

MCS respectfully requests that the following small amendments be incorporated into the bill.

- Add to Section 2 of the authorized print version of SB 154 on page 5, line 5  
“(b) The department shall deny an application or renewal if the Applicant is under the supervision of the Department of Corrections or a youth Court or is ordered by a Court to participate in any state, county or local government criminal supervision or enforcement program.”
- Add to Section 4 of the authorized print version of SP 154 on page 7, line 23  
“(c) The use of marijuana by any person under the supervision of the Department of Corrections or youth Court or ordered by a Court to participate in any state, county or local government criminal supervision or enforcement program.”
- Add to Section 4 of the authorized print version of SB 154 on page 7, line 26  
“...including all facilities and programs described in 53-1-202.”

The amendments submitted are to insure that none of these offenders slip through the cracks because of language or definitional aspects of the legislation. The amendments simply tighten up the bill to accomplish the goal of the bill.

I would appreciate your support of the proposed amendments submitted for SB 154.

Sincerely,

Sue L. Wilkins, Executive Director  
Missoula Correctional Services, Inc.
